

Youngstown State University  
***Summer of Growth***  
**2008 Graduate Professional Education Workshops**

***A Message*** from the Dean:

The Beeghly College of Education will once again coordinate the offering of workshops which we hope will contribute to a “Summer of Growth” for area professionals. The workshops in this brochure are assembled with the perceived needs of P–12 students, teachers, counselors, and administrators in mind. They offer both potential enrollees and Youngstown State University faculty the opportunity to explore innovative ideas outside the regular degree curriculum.

The workshops listed in this brochure are at the graduate level and as such have outcome expectations and out-of-class assignments in keeping with graduate offerings. On the other hand, given the intensive nature of many of these workshops, class assignments and projects are modified in keeping with the goals of the workshop. All workshop grading is satisfactory/unsatisfactory.

We look forward to seeing you this summer. For those of you who have participated before and plan to return, it’s good to know you found the types of workshops you value. For those of you considering Youngstown State University for the first time, we hope you keep our offerings in mind as you plan your “Summer of Growth.”

Dr. Philip Ginnetti
